Kemalists' Ambiguous: Attitude.

ADDITIONAL ATLANTIC FLEET UNITS ARRIVE

(Router's Service.)

London, September 27. The revolution in Greece, is confirmed in official quarters in

London. It seems that it broke out in Chios and Mytilene, where there are large numbers of subliers and refugees. The political signifiance is at pr. sent obscure. It we me clear that another revolution has commenced at Salonika, where it has adopted a somewhat dif ferent form, there being much talk of fighting for the retention of Thrace. Some refuzees from Chius and Mytilene are reported to be voyaging to the mainlind

Abdication of Constantine.

It is authoritatively learned that King Constantine has abdicated.

Greek Warships in Turkish Waters. Athens, September 17.

General Kontz's has induced the garrison at Salonika to suppor a manifesto of the troops at Mytilene. General Platsiras is controlling the movement of the Chios fleet, which appears to be siding against the Government.

athens has, so fur, been quiet. The British and French representatives have made a representation to the Greek Government that the presence of threak warships in Turkish waters is impairing the prospects of peace. It is announced that the Greek cruiser Averwill be recalled, but two torpedo-boats are o remain at Conwastinople provisionally for the purpose of protecting Greek Nationals

The butta ships Kilkis and Lemnos, nine torpedo-boats, and seaplanes at Mytriche have sided with the revolution. It is reported that a body of revolutionary troops has lauded at Cape Sunion

· ieneral Papullis has been sent to try to induce them not to advance There is great excitement at Athens and the most sensational rumours. It is an ounced that troops have been disembarked a various points in Attica.

Mustapha Evasive.

Chastar tinople, September 27. General Harrington has received a reply from Mustapha Kemal concurring in the Allies' desire to avoid incidents, but evading the question of withdrawal, disclaiming any knowledge of any neutral zone, and complaining that the British have destroyed buildings and road≉.

Russia Demands Representation.

London, September 27. A Soviet Note has been received by the Foreign Office asking way. Amongst the particulars ratiring member, is the only one that Russia, Georgia, and the I kraine shall participate in the Near asked for are the languages sent in, and there, will couse. East conference.

The Note says that none of the Western Powers are taking steps phone numbers, name of nearest ! to prevent war, and that the key to the Near East question is the Police Station, particulars of effective restoration of Turkish sovereignty and Turkish lands, especially the Straits and Constantinople. Russia will recognise no necision in regard to the Straits in which she has not participated and which ignores her interests.

L o N. to Continue Its Efforts.

Geneva, September 27. The Assembly of the League of Nations has unanimously passed a resolution declaring that it sincerely desires to ensure the reestablishment of peace in the Near East and will support all efforts in respect of this. It is gratified that a Near East conference is contemplated and is fully confident that the Council, without in any way interfering with the contemplated negotiations, will take any measures thought advisable and justified by the state of the negotia- | Supreme Court, Sydney, since 1920. tions, so as to respond to the unanimous wish of the Assembly for a prompt return of peace. Relief of Refugees.

The President announced that Greece had contributed two million drachmae and Sweden £1,000 for the relief of Asia Minor refugees.

Further British Naval Reinforcements. London, September 27.

Ten units of the Atlantic Fleet have arrived at Constantinople to strengthen the British forces.

RUBBER PRICE GOES UP.

Increased Demand from America.

London, September 27. The recovery in the price of rubber to 81, per pound yesterday is attributed to a fall in London stocks to 71,167 tons, fresh discussion of restriction schemes, increased demand from America and a renewal of Russian demand.

Wasteful Management.

London, September 27. The Rubber Shareholders' Association publishes a message from its agent visiting Penang contending that much waste existed on the majority of estates. He suggested that better results would follow if the properties were managed on one eyetem and the purchase of material and reciuitment of labour established on co-operative

CARPENTIER-SIKI FIGHT.

Loser Appeals Against Decision.

London, September 27. The Carpentier-Siki film should have been shown in London! vesterday but it did not arrive. It was subsequently explained that the exhibition was postponed because Carpentier had lodged an appeal against the decision, contending that a foul was shown by the slowing down of the film.

The Carpentier-Siki film was smuggled to London serially and exhibited to experts, including Kid Lewis and Eugene Corri. The has been broken off by mutual consept. letter expressed the opinion that Siki's alleged trip was not a foul. Lawls stated that he had challenged Siki.

BRITAIN AND TURKEY.

It is understood that the British have requested the Admanats on pracuate the neutral zone within torty-eight hours fries the finnish internation of the message.

Interviewed by an American correspondent at Smyrna, Muniaplin Kemal declared that Turkey was prepared to gonrantee to keep the Straits open t d willing to demolish the existing fortifications; but who insisted that the safety of Constantinople must be assured b means of the Sea of Marmorn.

In the course of a denunciation of the British Government, particularly Mr. Lloyd George, he made the astunishing charge that it was interested in closing the Struits. He stressed his objection to British acquisition of territory in connection with Irak oil. He favoured a mutual exchange of Christian minorities in Anatolia for Moslem minorities elsewhere, as a solution of a difficult problem. Helsingtors, Sopt. 27.

It is reported from Moscow that the Soviet has decided to send armed support to Mustapha Kemal in the event of a collision with the British, and is endeavouring to stiffen Kemal hyainst peace. Stops for military intervention are being prepared, including extensive plans to create a base in Caucasus.

London, Sept. 27. Renter messages from Athens indicate serious revolutionary movements at Salonica, Mitylene and Lufissa. A crisis is developing. Athens, Sept. 27.

An aeroplane from Mitylene, where troops from Anatolia are reported to have landed, dropped copies of a proclamation here demanding in the name of the Army and Navy abdication of the King in favour of the Crown Prince, the immediate dissolution of Parliament, formation of a new Cabiner, and the physiciate reinforcement of the Thracian front. The signatory, Colonel Conates, is not . Venizelist.

Proclamations were also dropped at Larissa and Salonica, where the attitude of the Army is suspicious.

The Minister for the Interior in an interview stated that the Government did not know how many warships had joined the movement. He thought it had the character of peaceful demands from a section of the Army and Navy.

The Covernment has resigned. Most important changes are impending. The indications are of a peaceful solution of the crisis. It is doubtful whether General Metaxas will accept the Premiership. Meanwhile, the town is strongly patrolled and martial law is being proclaimed

THE DISARMAMENT QUESTION.

Geneva, Sept. 26. Lord Robert Ceell made a great impression in the Assembly of the League to-day in debating the arms traffic. He alluded to purchases of arms by the Soviet, which he described as the enemy of all governments. He arged the conclusion of an effective convention to deal with the traffic in arms; also the formation of a small committee for the purpose of showing the world what it was exposed to by poison gases. He solemnly declared that the nations must disarm or perish.

Mr. Fisher, while agreeing with Lord Robert Cecil's speech, advocated a further study of the whole matter. He pointed out that the Third Commission's report, strongly favouring the treatment of Reparations and War Debts as a whole; reflected the British Government's policy.

OPIUM AND DRUGS.

Genera, Sept. 27. The Council of the League has decideds to give effect to the Assembly resolutions upon the traffic in opium and dangerous drugs. The consultative committee on these matters will be invited to consider as soon as possible whether the Governments belonging to the International Opium Convention should be requested to agree not to give licenses for importation from countries which have not yet ratified the Convention or adopted the system for controlling exports and imports approved by the Second Assembly. The General Secretary was requested urgently to invite the United States to appoint a delegate to the Consultative Commission.

GERMAN TRADE REVIVAL.

London, Sept. 27. S. M. Mitra, in the Daily Telegraph, draws attention to the rapid. ity of German commercial expansion in India, which in the past ten months has practically driven out Japanese goods from India. I says the Hindu. Moslem and Parsi shops are full of German merchandise and Germany is organising the despatch of goods'from India by the Youngiousband route to Tibet. He believes a large volume of trade in Indiae will pass to German hands if the British manufacturers do. FOR A SHORT TIME ONLY. not start an organisation to combat the German expansion.

THE FRENCH SHIPPING STRIKE.

Marseilles, Sept. 27. A north demonstration was made by 1,500 passengers stranded here as a result of the seamen's strike. They marched in procession along the Streets, held meetings and proceeded to the Prefecture.

FINANCIAL AID FOR AUSTRIA.

Geneva, Sept. 27. With Britain agreeing jointly with France and Czecho-Slovakia, and, most probably. Italy, to afford financial aid to Austria. the Council of the League will be able immediately to deal with

the question through the committee headed by Earl Balfour. . The aforementioned nations jointly guarantee 50%, of the ad vances of banks of other countries, and guarantee the balance to make up the requisite amount.

THE NORTHCLIFFE PAPERS.

London, Sept. 27. A share transaction has been carried out by the administrator of Lord Northeliffe's estate, whereunder Viscount Rothermere will become chief proprietor of the Daily Mail and associated papers. The shares concerned are being transferred to the "Daily Mail Trust." which is issuing £1,600,000 of debentures.

A FATAL ACCIDENT.

Enquiry into Coolie's

The death of a coolie named Lau Take who clied as a result of a cultision with motor car 33 near the Hongkong Electric Company's North Point Installation on the night of the 8th, insk, was the subject of an enquiry conducted by the Unroner (Mr. R. E. Lindsell) at the Magistracy yesterday. The jury was composed of Mr. D. J. Purves internan), Mr II. H. Remedios and Mr. A. F. Navier.

At 10.45 p.m. on the 8th, the deceased was returning to a stonecutters' shed at Whitfield from the Ming Yuen Gardens, and at the time of the collision motor car 352 was returning to town from Shaukiwan with a party who had been driving round the island. The deceased was unconscious when the motorists picked hun up with blood streaming from a wound on the head. He was taken to the Government Civil Hospital, where he subsequently died without regaining consciousness. The post mortem examination performed by Dr. D. J. Valentine at the public morturry revealed a fracture of the skull. The brain was also lacerated. The only other miury was a bruise on the ontside of the left thigh. Dr. Valentine, in his evidence, attributed the case of death to hem-

How the Accident Occurred.

Mr. B. C. Randall, is clerk employed by Mesers Benjamin and Potts, deposed that on the evening of the Sth. he mist some friends went muturing in car 352, which had been lent them by the owner. Mr. Taylor. They started from Bonham Road at 845, and proceeded round the i-land via Aberdeen. Nearing the North Point power station on its way to the town, his our passed a tram which was proceeding to Snauki wan, and just then he saw a Chinese in front of the care. How the man got there he could not say. There was a collision. The driver pulled up at once, and on getting but to investigate, witness found that the wheels had not passed over the man, as was shown by

the front of the car. There was a wound in the man's head, from which blood was flowing. Examined by the Coroner, Mr. Randall said that his car was about ditions. three feet from the side of the road at the time. It was going at a moderate rate. to have been an eye witness of the reagedy, gave a very meconsistent account of the affair. He at first stated that he, the decouved and four others were returning home from the Ming Your Cardens, walking in single file on the left hand side of the road. When shecked or the Coroner regarding a statement which he made to Traffic Inspector Garrod, he changed his version and said that the statement he made to the police that the de- the deathbed of a nation when ceased and two others had been walking in the centre of the road before the collision was tive.

- Addressing the jury, the Coroner said that there were several other coolies who could be called to, give evidence if the jury was not satisfied. It was not usual in these enquiries to call the driver of the car, as there was a possibility of a verdict of manslaughter being recorded against him. For this reason he had not been so far

HARRIET AND THE

A Story of Free Love.

Greenwich Village, New York's famous Bohamian quarter, furnishes the setting and a handsome young free-love advocate, a Hinduo and an unsophis icated end are the chief actors Harriet and the Piper," the First National attraction which i comes to the Coronet to-day.

The legent of the pied piper of Hamelin is cleverly interwover. into the story of the picture. The free love advocate, who leads a life of cultivated indolence at the expense of a rich aunt, is the piper whose specious theories baruile the unsophisticated heroine, Harriet Field, into aureeing to go through the empty ceremony of a free-love marriage

with him. Harriet is rescued just in time from the tangled web into which free love gentleman, have led her and becomes a governess in a respectable home. How she nobly saves her employer's daughter from seduction by the sinister villain of the piece and the latter's 2 ultimate fate at the hands of the Hindoo whose bride he has wronged makes a story that will be found to be of compelling interest.

THE HONG MOH DISASTER.

An Echo from Singapore.

At the meeting of the Legilative Council, held this afternoon, an interesting discussion took place on the second reading of the Bill which seeks to regulate the employment of children.

The Hon. Mr. Chow Shou-son said that he and his Chinese colleague supported the Bill principle, but they wished to point out that it would deprive very many poor families of the earnings of the children and make it difficult for parents away at work to conthe children left He strongly advocated Government should provide or assist in the provision more free schools. He did not think compulsory education was applicable to the Colony but he thought that more, free! such bodies as the Tung Wah Hospital Committee and Confucian Society. They hoped before long that the Government would do something in that

direction. Mr. Pair supported Mr. Chow's remarks.

Mr. Bird thought the whole community would welcome the Bill because it was high time that they had legislation to regulate the employment o children. They should have factory laws and women inspectors as well as men inspect ors. The Bill was a move in the right direction. As regards children debarred from employment by the Bill, he admitted there was a problem still to be

solved. H.E. The Officer Administering the Government replied to the discussion, saying that the Commission, on whose recommendations the Bill was based had always realised that there would be a certain amount of hardship by children being debarred from employment. Bu they had to choose the lesses of two evils He went on to foreshadow-sympathetic Government policy with regard to the extension of free educational facilities and the establishment of better and cheaper homes for the working classes.

The Bill subsequently passed its final stages.

"Sing-Song" Girl's Experiences

A fifteen-year-old "sing-song" girl figures in a curious case of blackmail that came up for hearing before Mr. R. E. Lindsell this

the girl is that she received an engagement to sing at the Sam fuen teashop on the 22nd instant, and that she walked into a trap on arrival, beconfronted by two men who threatened to kill her if a sum of \$100 were not forthcoming. She lived with her grandmother and all the earnings she received went to her. For this reason she was not in a position immediately to comply with the demand, but returned home, in a very nervous condition, to report the occurrence to her relative. Going up to the Station the following day to inform the police, she saw a man being brought in whom she recognised as one of the alleged black-

FACTS ABOUT RHEUMATISM.

There are many things still un-The story told to the police by known about rheumatism. But one fact is acknowledged by all medical writers, and that is that the blood rapidly becomes thin and poor when the rheumatic poison invades it. The best way to prevent or cure rheumatism is to build up the blood with Dr. Williams' pink pills, for the new rich blood made by these pills enables the sufferer to throw off the poisons of this painful ailment. SKIM MILK

WHAT IS IT?

It is milk from which most of the fat (cream) has been removed.

Is it nourishing? Is it healthful? IT IS BOTH!

We feed our calves on Skim Milk. You will never starve drinking Skim Milk. It contains all the nourishing elements - the casein, etc., which ordinary milk contains (less the fats only), and is far more easily digested than whole milk because it is not rich in fats.

Skim Milk is a low-priced milk, specially suitable for making Puddings and thickening Soups. It also has many other uses.

TRY IT!

You will soon be ordering it by the gallon.

A plentiful supply always on hand. Skim Milk is loaded with the now famous VITAMINES. Regular milk drinkers seldom suffer from diseases due to lack of Vitamines.

Milk for the kiddies is a builder of bone and muscle. Be on the safe side and let them drink Skim Milk instead of water.

COMMERCIAL NEWS.

GERMAN COAL SUPPLIES. Germany is the most uncertain spot in the foreign coal market at the moment. The Deriver Tugeblast says that Germany imported from England, 1,330,000 tony of coal in the first four months of this year, and that the shipment rate has increased since then, with the prospect that the pre-war rate will be equalled before long. In 1913 she imported 19,000,000 tona of coal Newcastle firms booked orders from the Fatherland for 1,000,000 tons in one recent week, declared the Tageblatt. Acute coal shortage is reported, but the situation is very difficult to gauge. The Peutsche - Higenwine Zeitung writes dolefully of threatened disaster in Germany owing to reparation demands. The Frankfurter Zeitung states that "the whole of German industry suffers from intensa coal abortage. T It is bemosted that whilst Girmany is required to deliver nearly 2,000,000 tons of coal per month to the Allied countries, she had To Singapore, Batavia, Samarang | berself to import 750,000 tons of English coal in the month of May, and about 1,200,000 tons in June and pay for it. It is complained that when reparation deliveries fall behind, the Guarantee Committée becomes remorselessly active." The German press in general makes much of the point that France, aided by reparation fuel, will offer keen competition against England in iron and steel! JAPANESE GOVERNMENT'S IRON

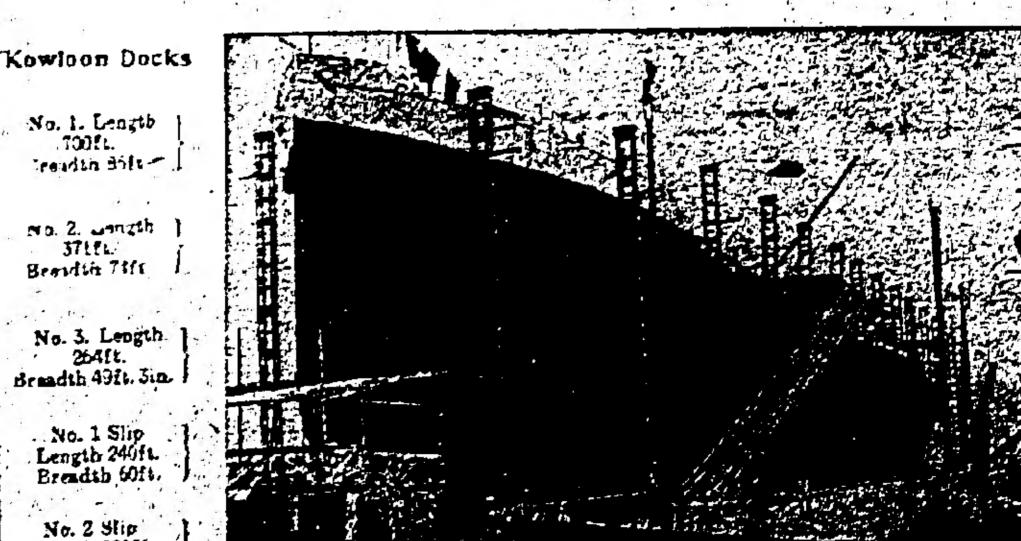

> FOUNDRY. In regard 'to the country's sources of supply of iron ore and other questions affecting the Japanese Government Iron Foundry, Mr. Shirani, President of the Foundry, is quoted by the Obaka Asahi as saying that as iren ore is unfortunately scarce in Japan, supplies must be obtained abroad. With the Taiyeh Mine in China: there is a contract that all the ore produced there should be supplied to the Foundry and that in the event of sales being made to other parties permission of the Japanese Government should be obtsined but at present this agreement is not enforced although the output is not sufficient to meet contract requirements. Moreover troubles. occur every year when the price has to be settled. It is, therefore, a matter of urgent importance to find a mine situated near Japan capable of producing not less then 300,000 tons yearly, so that Japan shall not be dependent upon the Tayen mine. The Tacchu mine in China being suitable, negotiations are being conducted through a representative of the Sino-Japanese Industrial Co. at Shanghai, and it is hoped a contract will be concluded for a regular supply of over 300,000 tons of iron ore every year. For the supply of suitable coal to mix with coke, a mine adjacent to the Foundry's Shikamachi mine will be purchased. The third term of the Foundry's expansion work is exnected to be completed by 1928. and then all the factories wish be ... "electrified. Upon the completion of this work the Foundre will be firmly established on a permanent

SHIPPING NEWS.

SELVEN'S STRIKE SEQUEL. A sequel to the recent strike of seamen at Shanghai is being teported in native circles directly concerned. It is stated that shortly after the final settlement had been effected with the China Merchants' Steam Nevigation Company, the officials of the Union called the various foremen teg of beruoyashes bus redtegot them to obtain from each man compensation representing two months' wages. This incansed the man who contend that any attempt on the part of the Union's officials to obtain monetary compensation is contrary to the objects of the Saamen's Union. The complementary Seamen's CALCUTTA' LINE .- This Line now affords regular sailings to Union, an organization entirely isaid to be the first organization discuss the new situation. There is every indication that. the operators of this steamer. Messrs. Moore and McCormack. had taken every precautions to prevent such an occurrence."

FOOCHOW SHIPPING. The tonnage of the port eclipsed all previous records; 1,680 vessels entered and cleared, aggregating 1.201,786 tons. Chinese shipping heads the list with over half a million tons, followed by Japanese. 376,998 tons, and British, 258,994 tons. Other nations participating were America. Holland, Norway, France and Russia in the order named, but their tonnage is insignificant in comparison with the first three on the list. Maritime Customs Report, 1921.
